

Poster list

Paper#	Title	Authors
112110	<i>Biphonation, combination of notes and rules for syllable composition makes complex the repertoire of the coati</i>	Aline Gasco, Patrícia Monticelli
112207	<i>Vocalization analysis of <i>Drymophila ferruginea</i> (Temminck, 1822) (Aves: Passeriformes: <i>Thamnophilidae</i>) in distinct regions of Brazil</i>	Ana Luiza Catalano, Reginaldo Donatelli
112407	<i>Detection of Bird Vocalization on Field Recordings: A Comparison of Methods</i>	Juan Ulloa
112534	<i>Effect of the level of the call and the frequency of the echo on the response of cortical target-range neurons in the bat <i>Pteronotus quadridens</i>.</i>	Emanuel Mora, Silvio Macías
112856	<i>Territorial behavior of central Amazonian <i>Allobates femoralis</i> in response to calls of a novel acoustic phenotype</i>	Emerson Pontes da Silva
113258	<i>Noise effect on the fine acoustic characteristics of White-eared Ground-sparrow (Aves, <i>Emberizidae</i>) vocalizations</i>	Carolina Mendez, Luis Sandoval
113311	<i>Geographic variation in the social call of the Azure Jay (<i>Cyanocorax caeruleus</i>)</i>	Gabriel Rosa, Luiz dos Anjos
113319	<i>Spatial and temporal variation in the dialects of the Rufous-collared Sparrow (<i>Zonotrichia capensis</i>) at a microgeographical scale</i>	Natalia Garcia, Ramiro Arrieta, Pablo Tubaro
113329	<i>Variation in anuran calling activity to daily precipitation and temperature: implications for climate change</i>	Oscar Ospina
113356	<i>Vocal repertoire and acoustic interactions in <i>Physalaemus cuvieri</i> (Anura, <i>Leiuperidae</i>) in southern Brazil</i>	Priscilla Gambale, Vinicius Batista, Rogério Bastos Lis Bittencourt, Isabela Lima, Luciana Guimarães de Andrade,
113367	<i>Comparison of Guiana dolphin whistles between two differently noise-impacted areas</i>	Rafael Ramos de Carvalho, José Lailson Brito Jr., Alexandre de Freitas Azevedo Isabela Lima, Luciana Guimarães de Andrade,
113397	<i>Interspecific whistle comparison among three species of delphinids in Rio de Janeiro, Brazil</i>	Lis Bittencourt, Rafael Ramos de Carvalho, José Lailson Brito Jr., Alexandre de Freitas Azevedo

113514	<i>Sound Recognition in Real-time at, and Beyond the Human Expert Standard</i>	Neil Boucher, Michihiro Jinnai, Hollis Taylor Ilya Volodin, Vera Matrosova, Elena Volodina
113542	<i>Sex differences in calls of Iberian red deer Cervus elaphus hispanicus</i>	Israel Maciel
113548	<i>Whistle repertoire of wild bottlenose dolphin (Tursiops truncatus) in Southeast of Brazil.</i>	Anamaria Ferreira
113618	<i>Test of acoustic adaptation hypothesis in birds in open and dense environment in Cerrado biome</i>	Camila Rocha
113640	<i>Bioacoustic Analysis of Great Kiskadee, Pitangus sulphuratus Linnaeus 1766 (Tyrannidae) in three environments: Urban, Semi-urban and Non-urban</i>	Michal Budka, Tomasz Osiejuk Michal Budka, Gunvar Mikkelsen, Lucia Turèoková, Yoan Fourcade, Svein Dale, Tomasz Osiejuk Vinicius Batista, Priscilla Gambale, Rogério Bastos Rubens Antonio Felipe Turin Marco Bonato, Irene Piccini, Artadji Attoumane, Ahmed Ouledi', Cristina Giacomina Simone Baumann- Pickering, Anne Simonis, Marie Roch, Mark McDonald, Alba Solsona Berga, Erin Oleson
113684	<i>Formant frequencies are acoustic cues to caller discrimination and are a weak indicator of the body size of corncrake</i>	Renata Alquezar
113686	<i>Macrogeographic variation in the call of the corncrake Crex crex</i>	Ana Sirovic, Sara Kersky, Madeleine Parsell, John Hildebrand Milene Garbim Gaiotti, Regina Macedo Niki Diogou, Holger Klinck, Jeffrey Nystuen Marconi Campos Leiliany Moura, Jose Silva Neto, Suemi Tokumaru, Leandro Magrini, Patrícia Monticelli, Selene Nogueira Saul Lima, Ednei Santos,
113688	<i>Description of the advertisement call of Hypsiboas caingua (Carrizo, 1991) (Anura: Hylidae)</i>	
113702	<i>Individual call variation in a treefrog from the Brazilian Cerrado</i>	
113720	<i>Acoustic characterization of Spinner dolphin (Stenella longirostris) whistles in Grande Comore</i>	
113810	<i>Spatio-temporal patterns of beaked whale echolocation signals in the North Pacific</i>	
113833	<i>Using Automatic Recording Units to Monitor Open Cerrado Avian Communities</i>	
113853	<i>Implementation of automatic detectors for blue whale and fin whale calls</i>	
113873	<i>Distress calls of some bird species from Caatinga, Ceará- Brazil</i>	
114011	<i>Seasonal presence of sperm whales, Physeter macrocephalus, in offshore areas of the Gulf of Alaska</i>	
114102	<i>Acoustic long-term data from multiple taxa in the tropics</i>	
114531	<i>Acoustic repertoire of captive white-lipped pecari (Tayassu pecari)</i>	
114541	<i>Is the seasonal song change of the humpback whale (Megaptera novaeangliae) generated by high quality males?</i>	

- 114685 *Brydes whale (Balaenoptera edeni) vocalization in the Cabo Frio region, southeast Brazil*
 Marcos Rossi Santos, Yvonnick Le Pendu Luciana Figueiredo, Sheila Simão Marcos Rossi Santos,
- 114904 *Acoustic records of Callicebus coimbrai (Kobaiashi & Langguth, 1999) in a small fragment of Atlantic Rain Forest near the metropolitan area of Salvador, Bahia, Brasil, with notes on their behavioral ecology and conservation.*
 Josenilton Souza, Udemário Ribeiro, Alex Laurentino, Adriano Queiroz, Rafael Santos Maria Isabel Gil, Marcos Rossi Santos,
- 114905 *Anthropogenic impacts on the behavior of fish and marine turtles in the largest visitor center of Projeto Tamar, Praia Do Forte, Bahia, Brazil*
 Guy Marcovaldi Juan Amaya Juan Pablo Amaya, Veronica Valentinuzzi, Gabriel Francescoli Mieke Zwart, Andrew Baker, Philip McGowan, Mark Whittingham José Augusto David, Carolina Ferreira André Ambrozio-Assis,
- 115009 *Long-range vocalizations in a Ctenomys species from La Rioja (Argentina): basic characteristics.*
 Milena Wachlevski, Ulisses Galatti, Marcelo Gordo, Caroline Oswald, Erica Saito Verônica Sousa, Christopher Murphy, Denise Rossa-Feres
- 115037 *The use of bioacoustic recorders to monitor species that are difficult to detect: an example of nightjars (Caprimulgus europaeus)*
 Fabiane Annibale, Verônica Sousa, Estela Figueiredo
- 115051 *Structural analysis of Volatinia jacarina song from the south of Espírito Santo, Brazil.*
 Annia Rodriguez-San Pedro Helene Courvoisier, Sol Camacho-Schlenker, Thierry Aubin
- 115052 *Variation in the advertisement call of Pseudopaludicola canga Giaretta & Kokobum, 2003 (Leiuperidae) in the savannas of southern Amazon, Brazil*
 Ayca Eleman
- 115112 *The effect of note type on intermale spacing in Dendropsophus nanus (Anura, Hylidae) aggregations*
 Guilherme Álvares, Nathocley Venâncio, Reuber Brandão, Regina Macedo Olaf Jahn, Iosif Mporas, Ilyas Potamites, Ilias Kotinas,
- 115116 *Advertisement calls or dorsal pattern of spots: which feature reveals best individual recognition?*
- 115159 *Echolocation calls of four species of bats from central Chile: a potential for acoustic monitoring*
- 115508 *Neighbour-stranger discrimination in the winter wren, Troglodytes troglodytes.*
- 115530 *The effects of anthropogenic noise on distribution of cetaceans in the English Channel*
- 115685 *The Advertisement Calls of Phyllomedusa hypochondrialis species group (ANURA: HYLIDAE: PHYLLOMEDUSINAE).*
- 115690 *The AmiBio Project - automating the acoustic monitoring of biodiversity*

115692	<i>Further Progress in Computational Bioacoustics needs Open Access and Registry of Sound Files</i>	Vassiliki Dimitrou, Otilia Kocsis Klaus Riede, Olaf Jahn
115706	<i>Influence of environment and behavior in burst pulse sound emitted by a population of <i>Tursiops truncatus</i></i>	Bianca Romeu
115707	<i>Acoustic identification of bats from Yerba Loca Nature Sanctuary, Chile: influence of geographic location</i>	Juan Luis Allendes Barros Krzysztof Deoniziak, Tomasz Osiejuk
115717	<i>Shorter and more redundant syllables in song of the urban population of chiffchaffs</i>	Artur Andriolo
115722	<i>Wide frequency range of whistles of Risso's dolphin (<i>Grampus griseus</i>) in continental slope waters of southern Brazil.</i>	Tailise Dias, Alessandro Morais, Rogério Bastos Eduardo Abreu, Flavius Martins, Linilson Padovese
115740	<i>Acoustic behavior of <i>Hypsiboas goianus</i> (Anura: Hylidae) in Brazilian Cerrado</i>	Pawel Rek
115767	<i>Detecting Bioacoustic Events through Image Processing of Spectrograms</i>	Vinaya Sethi
115778	<i>Acoustic location of conspecifics in a nocturnal bird: the case of the corncrake <i>Crex crex</i></i>	Raisa Vieira, Dandara Martins, Rogério Bastos Christini Caselli, Daniel J. Mennill, Júlio Bicca- Marques, Eleonore Setz Alexandre Moreira, Tomás Rostirolla, Mauricy Souza, Tomás Rostirolla Estela Figueiredo, Verônica Sousa, Fabiane Annibale Rogério Bastos, Mariana Siqueira, Alessandro Morais Alice Lima, Ana Paula Andrade, Yvonnick Le Pendu Sonia Español Jimenez Gabriel Macedo, Claydson Assis, Daniel Firme, Fábio Amaral
115786	<i>Songs are crystallized in the first year in a tropical song bird, the Pied Bush Chat</i>	
115788	<i>Advertisement call variation in <i>Scinax pusillus</i> (Anura, Hylidae) from Brazilian savanna</i>	
115790	<i>Acoustic properties and behavioral contexts of black-fronted titi monkeys' loud calls</i>	
115795	<i>Sonography of song of the <i>Basileuterus culicivorus</i> (Aves: Parulidae) from north of the Santa Catarina Island (Brazil)</i>	
115798	<i>Influence of rainfall on the advertisement call in <i>Dendropsophus nanus</i> (Anura, Hylidae)</i>	
115800	<i>Acoustic response of <i>Hypsiboas goianus</i> (Anura, Hylidae) to interval call decrease of conspecific male</i>	
115803	<i>Characterization of Guiana dolphin (<i>Sotalia guianensis</i>) whistles from Ilhéus, Bahia, Brazil</i>	
115807	<i>Acoustic monitoring of large baleen whales and shipping off southern Chile</i>	
115809	<i>Comparing the loudsongs of parapatric sister species of antbirds (<i>Myrmeciza squamosa</i> and <i>Myrmeciza loricata</i>)</i>	
115813	<i>Vocal diversity of two Sundaic understorey bird species, <i>Pellorneum capistratum</i> and <i>Macronus gularis</i>.</i>	Emilie Cros
115817	<i>Monitoring and soundscape recordings as an acoustic memory of habitats and ecosystems: preserving recordings as scientific specimens</i>	Paulo Marques
115820	<i>Vocal repertoire and geographic range ampliation of <i>Hypsiboas jaguariaivensis</i> (Anura: Hylidae)</i>	Andre Bruinje, Mauricio Moura, Carlos Conte Bruna Duque, Thiago Amorim,
115822	<i>Vocal response of <i>Myrmeciza loricata</i> (LICHTENSTEIN, 1823) to the song and alarm call playbacks.</i>	

115825	<i>Spectral and temporal segregation between crickets and Psitacidae acoustic signals in an Atlantic Forest remnant</i>	Iara Assumpção, Ludemila Souza, Marco Manhães, Artur Andriolo Gabriel Oliveira, Luciano Martins, Edison Zefa, Carlos Sperber Renata Sousa- Lima, Rodney Rountre, Marcos Roberto Brito, Isadora Carletti, Vera da Silva Igor E. Lopes Macedo, Marcos Rossi Santos Ludemila Souza, Thiago Amorim, Bruna Duque, Iara Assumpção, Marco Manhães, Artur Andriolo Manuella Folly, Andressa de Mello Bezerra, Fabio Silva Fernandes dos Santos Hepp, Sergio Potsch Carvalho-e-Silva Mateus Brod, Laura Verrastro, Raúl Maneyro, Marcelo Freire Douglas Maccagnan Fabio Silva Fernandes dos Santos Hepp, Sergio Potsch Carvalho-e-Silva
115826	<i>Invisible but detectable: listening for wild Amazonian manatees (Trichechus inunguis)</i>	Eira Bermúdez
115827	<i>Bioacoustical patterns for an anuran community in a coastal lagoon of the Unidunas Ecological Reserve, Salvador, Bahia, Brazil.</i>	Alessandro Morais, Mariana Siqueira, Rafael Márquez, Rogério Bastos Pedro Rocha, Tiago Pezzuti, Felipe Leite, Paulo Garcia Iara Assumpção, Thiago Amorim, Ludemila Souza, Bruna Duque, Marco Manhães, Artur Andriolo
115828	<i>Environmental variables explaining frequency range variation in White-bibbed Antbird (Myrmeciza loricata).</i>	
115838	<i>The Advertisement Calls of the Species of the Genus Fritziaria (Amphibia: Anura: Hemiphractidae)</i>	
115839	<i>Anuran assemblage bioacoustics of the RS state, Brazil southeast mountain chain region</i>	
115840	<i>Divergence in calling song of allopatric populations of Quesada gigas (Olivier) (Hemiptera: Cicadidae)</i>	
115843	<i>The usefulness of acoustic characters in the taxonomy of the genus Euparkerella (Amphibia: Anura: Craugastoridae)</i>	
115844	<i>Experimental demonstration of real time bird call adjustment in response to anthropogenic noise</i>	
115849	<i>Is there a body size effect in the aggressive response of males of Hypsiboas goianus (Anura, Hylidae) to conspecifics?</i>	
115870	<i>Description of the calls from Bokermannohyla sagarana</i>	
116031	<i>Degradation and attenuation of vocalizations of Myrmeciza loricata</i>	

116043	<i>Acoustic characteristics of whistles emitted by tucuxi dolphins (Sotalia fluviatilis) in Amazon, Brazil.</i>	Thiago Amorim, Sarah Reis, Manuel dos Santos, Artur Andriolo
116044	<i>Preliminary analysis of vocalizations emitted by Amazon river dolphins (Inia geoffrensis) in Amazon, Brazil.</i>	Thiago Amorim, Sarah Reis, Manuel dos Santos, Artur Andriolo
116049	<i>Geographic Call Variation in the Mountain Treefrog, Hyla eximia</i>	Constantino Macías, Ruth Rodríguez- Tejeda, María Guadalupe Méndez-Cárdenas, Valentina Islas- Villanueva
116150	<i>Territoriality in nocturnal treefrogs: increase in the aggressive calls after visual recognition of competitors</i>	Raíssa Furtado, Fausto Nomura
116206	<i>Bioacoustics meets urban ecology: Green areas are hotspots of bat activity in a large city in northeastern Brazil</i>	Mona Lisa Araújo
116242	<i>Passive Acoustic Monitoring in Seismic Surveys: an urgent call for legislation in Brazilian waters</i>	Luciana Leite, Leonardo Versiani, Juliana Ferrari, Daniel Andrade, Thiago Filadelfo
116321	<i>The advertisement call of Agalychnis granulosa (Cruz, 1989) from REBIO de Pedra Talhada, state of Alagoas, Brazil</i>	Cyro Luna-Dias, Sergio Potsch Carvalho-e-Silva
116418	<i>Anthropogenic noise and acoustic behavior of Guiana dolphins (Sotalia guianensis) in Pipa/RN</i>	Dalila Leão
116466	<i>Alarm vocalizations of urban marmosets (Callithrix penicillata) (GEOFFROY, 1812)</i>	Sara Santos, Marina Duarte, Renata Sousa- Lima, Marina Santos, Robert Young
116480	<i>Flight call as a species-specific signal: Who prevails, phylogenetics or ecological constrains?</i>	Carlos Araújo, Paulo Marques, Jacques Vielliard
116566	<i>The Laughing Falcons (Herpetotheres cachinnans) song</i>	Luiz Ramirez Sena, Amanda Monte, Maria Luisa da Silva
116567	<i>Seismic Guidelines for Marine Mammal Mitigation and the use of Passive Acoustic Systems</i>	Felipe Penin, Alexandre Paro
116578	<i>Listening to Brazilian bats: acoustical identification of species in the Caatinga drylands.</i>	Carina Silva, Enrico Bernard
116585	<i>Behavioral context of different call types from captive maned wolves (Chrysocyon brachyurus) during proestrous</i>	Victor Sábato, Renata Sousa- Lima, Flávio Rodrigues
116586	<i>Variability levels of the advertisement call of Sphaenorhynchus caramaschii (Anura: Hylidae): body size and air temperature effects on some acoustic properties</i>	Lucas Forti, Rodrigo Lingnau, Jaime Bertoluci
116600	<i>Open source hardware alternatives for Bioacoustic Research</i>	Eduardo Romero Vivas
116601	<i>Spatial variation of syllable repertoires in loud songs of White-throated Thrushes, Turdus assimilis</i>	Luis Vargas
116602	<i>Analysis of echolocation clicks of the Indus River dolphins as observed in the wild</i>	Muhammad Usama Bin Sikandar

116611	<i>Methodology to Evaluate the Impact of Noise Pollution on Bird Communication</i>	Krisdany Cavalcante, Wilfrid Schwabe, Stellamaris Rolla Bertoli, Afiwa Midamegbe
116617	<i>FREQUENCIES OF Sotalia guianensis' WHISTLES INCREASE TOWARDS LOWER LATITUDES</i>	Sarah Reis, Suzana Reis, Natalia Mamede, Artur Andriolo
116619	<i>WHISTLES CHANGES BY Sotalia guianensis EXPOSED TO ANTHROPOGENIC NOISE</i>	Sarah Reis, Suzana Reis, Natalia Mamede, Artur Andriolo
116633	<i>Acoustic species detection using matching pursuit decomposition and random forests</i>	Rafael Alvarez-Berrios, Ludmila Magroski, Andressa Pessoa, Alan Loures
116635	<i>Validation of ecological niche modeling through bioacoustics data</i>	Ribeiro, Carlos Araújo
116641	<i>Vocal repertoire of red-legged seriemas (Cariama cristata) (Aves, Cariamidae)</i>	André Castro
116648	<i>A low-cost sound survey data assessment</i>	Cássio Rachid Simões, Gustavo Vieira, Frederico França, Carlos Araújo, Pedro Diniz, Guilherme Marques, Fernanda Silva, Regina Macedo, Ingrid Mattos, Jose Mermudes
116657	<i>Song structure is correlated to parental effort in blue-black grassquits</i>	Melania Guerra
116664	<i>Comparative acoustical signals of Passalidae (Coleoptera)</i>	Leandro Tacioli, Claudia Bauzer Medeiros, Luis Felipe Toledo
116674	<i>Effects of seismic airgun impulses and their reverberant field on the acoustic habitat of Arctic Ocean environments</i>	Anyelet Valencia Aguilar
116677	<i>Software Development for Animal Sound Identification</i>	Natalia Albuquerque, Antonio Souto, Juan Luis Parra Vergara, Andrea Morales
116678	<i>Redescription of the advertisement call of Macrogenioglottus alipioi (Anura: Odontophrynidae)</i>	Rozo, Claudia Molina, Adriana Restrepo, Juan Manuel Daza, Juan Manuel Daza, Andres Hernández, Andrea Morales
116692	<i>Motorboat noise can potentially mask the whistle sound of estuarine dolphins (Sotalia guianensis)</i>	Rozo, Claudia Molina, Adriana Restrepo, Juan Manuel Daza, Juan Manuel Daza, Andres Hernández, Andrea Morales
116693	<i>Spatial and temporal variation in acoustic diversity in a fragmented landscape in the Central Andes of Colombia.</i>	Rozo, Claudia Molina, Adriana Restrepo, Juan Manuel Daza, Juan Manuel Daza, Andres Hernández, Andrea Morales
116695	<i>Bioacoustic monitoring in the Neotropics: Assessing animal activity of endemic and threatened species</i>	Rozo, Claudia Molina, Adriana Restrepo, Juan Manuel Daza, Juan Manuel Daza, Andres Hernández, Andrea Morales

116704	<i>Boy-talk: acoustic characterization of sperm whale slow clicks in a male-only high latitude feeding ground.</i>	Vergara Luca Lamoni, Ricardo Antunes, Patrick J. O. Miller, Peter L. Tyack
116705	<i>Temporal Variation of Advertisement Call in the Brazilian Winter Treefrog <i>Scinax hiemalis</i></i>	Daniel Chagas
116708	<i>Passive acoustic monitoring of noise and biological sound at North Americas first offshore wind farm.</i>	Luca Lamoni, Maxwell B. Kaplan, Aran T. Mooney, Laela S. Sayigh Paula Olivio, Aline Gasco,
116711	<i>A new call in the repertoire of the wild cavy: peep description and comparison between <i>Cavia magna</i> and <i>C. intermedia</i></i>	Elisa Augusto dos Santos, Patrícia Monticelli
116712	<i>Geographic variation of song within and between subspecies of the Mangrove Warbler (<i>Setophaga petechia castaneiceps</i> and <i>S. p. rhizophorae</i>)</i>	Taryn Tuncer, Robert Whitmore
116714	<i>Call structure suggests higher diversity of costa rican <i>Diasporus</i> (<i>Hedges, Duellman & Heinicke, 2008</i>).</i>	Adrian Garcia-Rodriguez, Marcelo Araya-Salas Caroline Leuchtenberger, Renata Sousa-Lima,
116718	<i>A sentence is more than the sum of its words: vocal repertoire of the giant otter</i>	Nicole Duplaix, William Magnusson, Guilherme Mourão Adriana Sicuto-de-Oliveira, Patrícia Monticelli
116719	<i>Public visitation interference on the frequency of nocturnal vocalizations of capybaras: preliminary results.</i>	Patricia Cortes-Calva
116722	<i>Acoustic Reference Collection: bats of dry-land environments in Mexico.</i>	Adrian Tonatiuh Ruiz Ruiz
116727	<i>A comparison of machine learning techniques in the classification of Neotropical bat species using all types of echolocation calls</i>	Felipe Camurugi, David Röhr, Flora Juncá
116729	<i>Could the different calling sites and associated advertisement call affect the behavior of <i>Hypsiboas atlanticus</i>?</i>	
116731	<i>Frog Calls of the World, the web-based reference checklist of FonoZoo.com</i>	Rafael Márquez
116732	<i>Barking in capybaras: structural differences to sign different informations?</i>	Cintia Suzuki, Aline Gasco, Adriana Sicuto-de-Oliveira, Marina Geraldi, Patrícia Monticelli
116738	<i>Modeling syllable patterns with Markov Random Fields</i>	Giovany Vega, Mitchell Aide, Carlos Corrada
116743	<i>The advertisement call of the rare <i>Aplastodiscus musicus</i> (Lutz, 1949) from Serra dos Órgãos, Brasil (<i>Anura, Hylidae</i>)</i>	Amanda Quintanilha
116760	<i>Construction of towed array hydrophone for sperm whale detections on brazilian coast</i>	Gustavo Miranda
116835	<i>Multichannel sound recording applied in bioacoustics, sound arts and environmental monitoring: source location and acoustic reconstitution in immersive environment</i>	José A. Mannis
116896	<i>Characterization of whistles of the Amazon River dolphin <i>Inia</i></i>	Gabriel Santos,

	<i>geoffrensis</i> (Cetacea, Iniidae) in the high Guamá River	Angelica Rodrigues, Danilo Leal Arcoverde, Iara Ramos, Maria Luisa da Silva, Ana Cristina Oliveira Rodrigo Matos, Maria Luisa da Silva,
117035	<i>Influences of anthropogenic effects on song parameters of screaming piha Lipaugus vociferans</i> (Aves, Cotingidae)	Amanda Monte, Luiz Ramirez Sena, Wanderson Pereira Olga Camila da Silva, Robson Soares de Melo,
117046	<i>Propagation of the common marmoset's phee call in Caatinga and Atlantic forest</i>	Bruna Bezerra, Cory Miller, Nicola Schiel, Antonio Souto
119797	<i>Monitoring soundscape dynamics via the use of a recently developed routine</i>	Nadia Pieretti, Almo Farina Lincoln Silva
119798	<i>Chronology versus vocalizations of the genera Hylopezus and Myrmothera</i> (Grallariidae)	Carneiro, Alexandre Aleixo Gabriel Beleia
119800	<i>Spectral and Temporal Niche Portioning of Three Tinamidae Species in Central Amazonia.</i>	McCrate, Gonçalo Ferraz
119805	<i>Duetto: a platform for the automatic identification of animal sounds.</i>	Alfredo Somoza, Frank Macías, Emanuel Mora
119807	<i>Can we monitor parrots with automated identification of autonomous recording data? A case study with the Mealy Parrot (Amazona farinosa)</i>	Luiza Figueira, Gonçalo Ferraz Monique Bastos de Araújo,
119808	<i>VOCAL REPERTOIRE OF WILD BLONDE CAPUCHINS, Sapajus flavius</i>	Antonio Souto, Gareth Jones, Nicola Schiel, Perri Eason, Bruna Bezerra
119809	<i>Socially experienced domestic dogs use gender-related cues to associate human voices with unfamiliar people</i>	Victoria Ratcliffe, David Reby Michelle Scharer, Michael I. Nemeth,
119940	<i>Courtship associated sounds provide information of grouper spawning aggregations</i>	Timothy J. Rowell, Richard S. Appeldoorn
